

LOGAN SQUARE KITCHEN EST. 2006

INVIGORATING FOOD SYSTEMS

LSK HACCP Fees

regs apply anywhere in USA (except Florida or Texas)

Updated 11/03/25

- **VacPack-ROP-sous vide, canning, fermentation \$4,200:** LSK writes your plan, submits to local regulator, secures approval, and delivers HACCP binder & editable electronic files. 2 payments: \$2000 to start work, \$2200 to deliver documents. Doesn't include any required lab fees.
- **Hotels, Universities, Multiple kitchens:** additional fee of \$800 per additional kitchen may apply. Additional HACCP binders, \$200 per book.
- **Charcuterie turnkey, \$4,600, plus any lab fees:** Includes both ground and intact, whole muscle meats. LSK submits to local regulator, secures approval, and delivers HACCP binder & editable electronic files.
- Other HACCP plans/processes? Contact for quote.
- **Wholesale/FSMA Regulations: \$200 per hour, estimate \$5000-7500.** Price varies based on number of SOPs needed in your FDA Food Safety Plan. FDA Plan must be written by a certified PCQI. Zina Murray is one.
- **HACCP Plan template, \$600:** Editable excel workbook, ready to complete and maintain. Includes 2 monitoring logs. Includes an hour of support to get started.
- **HACCP plan review or coaching, \$200 per hour:** You write your plan, LSK reviews before submission to regulators or auditors.
- HACCP training, **\$425** per person, online or in-person, see website for latest.
- **HACCP private class— \$425 per person, 9-student minimum if outsiders can attend. If cannot allow outside students, class minimum is 15. Max class size 25. Travel fees may apply.**
- **Plan updates, \$500:** (LSK-written plans only) When Code changes, LSK alerts clients, updates plan, and delivers/reviews w/Chef-team.

Reduced Oxygen Packaging Regulations

- Reg's require all retail operations have approved HACCP plans in place for vacuum packaging, sous vide and cook chill processing
- Operations must submit HACCP plans to local authority for approval
- Operating without approval risks product destruction, halt of vac pack use
- Code references – for google
 - FDA 3-502.11 – variance requirement
 - FDA 3-502.12 – ROP and sous vide
 - FDA 8-201.14 – contents of HACCP plan
